

MCC HEALTH PLAN - PHARMACY BENEFITS

Diabetes Care Value Program:

Express Scripts manages your prescription plan. We're working to help reduce the costs of medicine commonly used to treat diabetes. As of March 1, 2017, you need to get these medications from a preferred network of pharmacies. These pharmacies control costs by giving you 3-month supplies of diabetes medicine with each refill. The network includes Walgreens pharmacies or delivery from the Express Scripts PharmacySM.

Please be Aware:

- You must fill your diabetic medication with 3-month supplies from the network to avoid paying full price.
- You can transfer your prescription(s) to a pharmacy in the network today at esrx.com/select.

You've got choices about how to use this network.

Compare Your Options:

Use our online tool at esrx.com/select. You can see locations of Walgreens and other pharmacies in the network, compare prices and walk through the steps to transfer your prescription(s).

Get your medicine delivered by Express Scripts Pharmacy.

Standard shipping is free.

Call Express Scripts at 855-778-1448,

A prescription benefit specialist will answer your questions and help you transfer your prescriptions.

Pick up your medicine at Walgreens or other participating pharmacy in your area.

To find the nearest participating pharmacy near you call Express Scripts at 855-778-1448

MCC and Express Scripts want to make sure you get the most from you benefit and avoid paying full-price for your medicine. Express Scripts is available to help. If you have questions, please call Express Scripts: **855-778-1448**.
